

iCARE: Caregivers Advancing Resilience and Empowerment

iCARE is a new free program for caregivers looking for self-paced education and tips about navigating adolescent substance use. This program is funded by the Massachusetts Department of Public Health, and can be completed on a computer/tablet or phone.

iCARE has 4 modules:

Neurobiology of Substance Use

Industry Tactics & Media Literacy

Risk and Protective Factors

Effective Communication

Additional content includes activities, downloadable content, and conversation starters.
